Nature of Complaint:

DOCKET NO. E-01575A-15-0127 OPPOSE

Kyle Koski

Sierra vista, AZ 85650

In the matter of the application of Sulphur Springs Valley Electric Cooperative, Inc. for approval of a new Net Metering Tariff Schedule NM-2 and revisions to the existing Net Metering Tariff Schedule NM.

I recently installed a solar unit at my home to produce power which would connect directly to the public utilities power grid to offset the cost of power drawn by me from the grid (net metering) and to promote more solar power. I entered into an agreement/contract with SSVEC assuming the current net metering rules would remain intact. Had I been aware of the possibility of this agreement/contract changing so drastically, I would likely not have pursued this endeavor. I did enter into a contract with SSVEC and I have not attempted to break the contract in any way. In fact, I have fulfilled my portion of the contract fully, in good faith. However, the current change that SSVEC is proposing is a blatant breach of this contract. I request that ACC deny the SSVEC request for waiver on the net metering rules and require the original contract remain intact and enforced throughout the lifetime/existence of the unit on my property, as so stated in my original contract.

Subject: Increasing solar rates

Dear Utility Division,

Four of the five utilities are trying to levy charges on solar customers outside of established procedures. The fifth is trying to raise the rates an exorbitant amount which is taxing to us as solar and homeowners.

- Utilities shouldn't get rates special treatment to raise rates.
- The fair process for discussing solar rates is in a rate case. They are just trying to create an energy monopoly.
- All Commissioners, and APS, have stated that solar rates should be looked at in a rate case.

Which means that they are trying to bend rules to gain their domination of energy in the state • The Commission should stick to their word and not let utilities raise rates outside of the proper venue.

Sincerely,

Henry Harding
